BASIC-ABSTRACT:

NOVELTY - Bamboo having a healthful component to human body is provided on a broiling plate to improve taste and flavor of meat or fish.

DETAILED DESCRIPTION - In a broiling plate(10) to broil meat or fish, the broiling plate has a certain area and is made of metal, stone, or ceramic. A plurality of bamboo connecting grooves and a plurality of protrusions are formed in upper part of the broiling plate. Bamboos(13) inserted to the bamboo connecting grooves are arranged on the broiling plate. The upper surface of the bamboo is higher than the protrusions to broil food on the bamboo.
